

SPECIFICATIONS OF ZOOM INTERNATIONAL NEWS IMAGE CONTEST

The contest will be in two categories

1- The Best News image Awards

(The first, second and the third will be determined from participants)

2- News View Awards

(The first, second and the third will be determined from participants)

. The contest is receptive for all news cameramen. The participation to the contest will be individual.

. A "Pseudonym" will be given by the participant to the pictures which will be sent to the contest.

. While the coverages evaluating by the jury, they will be given points in four different categories on the value of coverage, the relevancy of shooting rules, the risks taken by the cameraman, and the value of the coverage which was different from the other cameramen's shooting.

. If the same event's coverage sent by different cameramen, first these coverages will be valued in between and the chosen best coverage will be included in evaluation.

. The coverages must be shot and broadcasted in previous year (2013), which were participated in the category of the best news image of the year.

. Without the need to have been broadcasted under the Video News category, applicants shall be able to apply with any news clip they shot before and they have not submitted to any competition or special news clips they would produce any time for the competition. Applicants shall pay due diligence in production of the above-mentioned clips to ensure that the news clips are exceptional, creative and contributive in development of news-making. Music can be used if heavily needed.

. News clips that are submitted to the competition shall be edited in such a way that it shall not be apparent which TV station agency or individual shot the video. There shall be no title or logo of the TV station on the clip, nor shall the natural sound in the video contain any element such as the title of the TV station or the name of the cameraman. If you consider a part of your clip, which is not meeting, the above-stated criterion as critical and you want to use it, you need to take out such elements by using various effects (blurring or sound). Any other effect except the ones used for the above-mentioned purpose shall make the clip disqualify.

. The coverages, which will be participated in the contest, must be published in a DVD as a format of Microsoft Avi or in a professional broadcasting quality. This DVD must be delivered with an application form and signed specification or it could be posted.

. Each participant could be participate maximum with three coverages to the contest. The date of the coverage that was published, place and short story of the event should be written on application form. This section is very important. To be perceived and valued by the jury, the highlights must be clarified in story of the coverage section.

. Participants are deemed to have accepted that the organisation could be able to use their coverages as a news, in a programme, in the website or suchlike in other areas. Compilation could not be requested from the organisation.

. The coverages must not be longer than 4 minutes. "The colorbar" should be added to the beginning and the end of the coverage.

. The coverages should be send to the organization until 14th of March 2014 along with the application form.

Address: Üsküp Caddesi No:35 Çankaya 06680 ANKARA/TÜRKİYE
